Technical Skills

- **Languages:** JavaScript, TypeScript, JQuery, HTML5, CSS3
- **Framework/Libraries:** Angular (v12 - v18), React (v16+), Node.js, Highcharts, React Hook Form, Axios
- **UI/Styling:** Angular Material, Bootstrap, Tailwind CSS, AG Grid, AG Charts, PrimeNG, Material UI, Sass/Less
- **Tools/DevOps:** Git/GitHub, NPM/Yarn, Angular CLI, Webpack/Vite, CI/CD, Agile, VS Code, Chrome DevTools, Docker, ESLint/Prettier, Storybook, AWS (S3, CloudFront), Netlify, Vercel, Core Web Vitals, Lighthouse Optimization, Image Optimization
- **Architecture/Patterns:** Micro Frontend, Module Federation, Reactive Programming, RXJS, NgRx, Redux, React Hooks, Lazy loading, Signals, SSR/SSG
- **Testing & AI tools:** Jasmine/Karma, Cypress, Jest, GitHub Copilot, Cursor, Claude Opus/Sonnet, Component Testing, Accessibility (a11y)

Professional Experience

Harman Connected Service | Senior Engineer - Product Development | Pune, India. Sept 2023 - Present

- Designed and built scalable internet applications using Angular 16, with a focus on performance optimization across multiple projects with scratch development (2) and feature development (1), and restructured the code of existing applications (1).
- Developed a robust multi-step form for critical user workflows utilizing React Redux for state management and AG Grid for high-performance data handling, enabling features such as instant form validation, saved progress editing, and quick form duplication.
- Spearheaded a unit testing initiative for a React application, boosting code coverage by 36 percentage points (from 45% to 81%) and reducing post-deployment bugs.
- Actively participated in code reviews, identifying and helping to resolve an average of 3 critical bugs per month, elevating overall code quality and application stability.
- Developed 15+ dynamic and interactive data visualizations using the AG Charts library, including bar, line, and scatter charts, providing valuable insights to users across multiple dashboards.
- Contributed to product analysis and code optimization in a project, resulting in a 15% improvement in application performance.
- Consistently delivered features within 12+ Agile sprints, leveraging daily stand-ups, planning, and retrospectives to ensure predictable and high-quality outcomes.

Collabera Digital | Frontend Developer | Contract | Indore, India. Feb 2023 - August 2023

- Successfully collaborated to design and implement micro-frontend architecture (using module federation), enabling independent deployments and significantly improving cross-functional team agility.
- Leveraged CI/CD to automate deployments, reducing deployment-related errors by 15% and increasing deployment reliability to 99%.
- Embrace and actively participate in Agile practices, including daily stand-ups, sprint planning, backlog grooming, and retrospectives.
- Automated the deployment process for 2 major projects using CI/CD, increasing deployment frequency to twice weekly and reducing rollback rates by 5%.

Codezilla Technology & Consultancy | Software Engineer | Indore, India. July 2020 - Jan 2023

- Functioned as a full-stack contributor, developing and maintaining end-to-end web applications using a diversified stack including Angular, React, and Node.js.
- Planned and implemented 20+ RESTful API endpoints, enabling seamless communication between frontend and backend systems.
- Partnered effectively with project managers and stakeholders, ensuring clear communication and alignment on project timelines and deliverables for 2+ projects.

Samosys Technologies Pvt. Ltd. | PHP Developer Trainee | Indore, India. Sept 2019 - July 2020

- Gained foundational front-end development experience as a trainee, focusing on HTML, CSS, and JavaScript while actively contributing to minor feature development.

Education

Engineering College Tuwa, Godhra. 2015 - 2019

Graduated with a Bachelor of Engineering (BE) degree in Computer Science, achieving a cumulative grade point average of 7.86.

Certifications

- GitHub Copilot: AI-powered programming assistant -introduction to RAN R&D (Nokia)
- Angular Developer Bootcamp (Learn Code Online)
- Javascript Essential Training (LinkedIn Learning)
- Namaste Javascript (NamasteDev)
